

CSECE 4720/7720 FINAL PROJECT

Proposal:

No more than one page

Please include the following items:

- Project title
- The investigator(s)
For a group (up to two people), provide a description of each member's responsibility and a justification.
- The real world task you propose to investigate and its importance
- The dataset and its source
- The approach you plan to take as well as the novelty
- The procedure and timeline

Possible datasets and tools for your final projects:

UCI machine learning repository: <http://archive.ics.uci.edu/ml/>
